Muvizu is an easy-to-use software application that allows you to create animated 3D movies on your home computer. Free trial available. To create a movie, you just need to take a few screenshots with Muvizu and then paste them into the program and click the "Create a Movie" button. As a result, you will get an animated video. There are a few more interesting features in Muvizu that you can discover if you purchase the paid version of the program. For example, you can make your own movie sound effects using the built-in tools, create effects, add your own text, and more.
